Mill/Overlay & New Configuration — SH 81 — Hill County

July 29, 2022

WACO – TxDOT and its contractor are performing mill and overlay work along SH 81 from SH 22 to I-35 for preventive maintenance work. This work will primarily impact the frontage roads parallel to SH 81 and will require full one-way closures. Expect delays in the area.

Once work on the frontage roads is complete, which is scheduled to be in approximately three weeks, the frontage roads will remain permanently in a one-way configuration. Elementary and high school traffic will need to utilize the two crossovers to access the campuses and Hillsboro. The remaining mill and overlay work on the main lanes of SH 81 going to downtown will be completed over the next 2 to 3 months.

TxDOT encourages motorists to slow down and pay attention while motorists become acclimated to the new traffic configuration.
